

# Example of Online Database

Political Candidate Management System (PCMS) is a custom developed, web-based database that was ordered by Progressive Majority to track all past, present, and future candidates and their campaigns. I served as project manager for the development, user testing, training, and implementation of the PCMS database. As project manager, I worked with the political department, development department, and state offices to ensure their needs were met. This involved frequent communication and closely working with the programmer.

The following screenshots are examples of the functionality and capabilities of PCMS.

Below is the homepage after users sign in.

The screenshot shows the PCMS homepage. At the top left is the logo for Progressive Majority, featuring a stylized green and red starburst. To the right of the logo is a dark red header with the text "Political Candidate Management System" in white. Below the header is a yellow banner with the word "Home" in large, semi-transparent letters. On the left side, there is a green sidebar menu with the following items: Home, Help, Create, Browse, Search, Analyze (with a dropdown arrow), Datasheet, Manage (with a dropdown arrow), Users, Regions, Objects, and Logout. Above the menu, it says "You are logged in as: Jeff Lucas. You have administrator privileges." In the main content area, there is a heading "Welcome to the Political Candidate Management System" followed by a paragraph of instructions for new users. Below the paragraph is a button labeled "Change my password".

**PROGRESSIVE MAJORITY**

Home

**Welcome to the Political Candidate Management System**

If you are new to the PCMS system, please familiarize yourself with the menu controls to the left. You can create new candidates, create new campaigns for existing candidates, browse and edit candidates, and run analysis routines to create MS Excel-compatible datasheets, graphical charts and graphs.

Change my password

In PCMS, there are two types of records, CANDIDATE and CAMPAIGN. CANDIDATE records are the parent records and can have multiple CAMPAIGN records linked to them. The BROWSE navigational link allows quick access to CANDIDATE and CAMPAIGN records.

## CANDIDATE

The SEARCH tool is one of the most powerful features of PCMS. It allows searches to be performed with any combination of criteria from either CANDIDATE or CAMPAIGN records. Below is search for candidates from Washington state, who are active on the farm team, were under 35 years old as of March 1st and either belong to a union or are female.

You are logged in as:  
Jeff Lucas  
You have administrator  
privileges.
